WATER EXAM CRAM TRAINING

Indigo Water Group and Hydrolysis will be hosting a series of exam cram training seminars. Each seminar takes place shortly before the certification exam dates in the same city as the scheduled exam. While we can't teach the test, we can give attendees solid background information in a variety of test topic areas. We've also included math in two days of training since math problems can make up a significant portion of the test.

Training Units are **PENDING APPROVAL** by the State of Colorado. They have been approved in previous years.

Classes are limited to 20 attendees each.
